

Othman Manasrah

Palestine | P: +970 568076985 | othmanmanasrah95@gmail.com

PROFESSIONAL SUMMARY

Information Technology graduate with experience in backend development, full-stack systems, and AI/LLM applications. Skilled in Node.js, Express.js, MongoDB, React.js, REST APIs, and Ethers.js. Built privacy-aware AI tools during a Bosch internship and contributed to platforms such as Zeituna and Tourath, with interest in generative AI, backend architecture, and secure intelligent systems.

EDUCATION

Al-Quds University

Bachelor of Information Technology

Relevant Coursework: Data Analysis, Software Engineering, Operating Systems, Algorithms, Artificial Intelligence

Palestine, Abo Dis

Sep 2021 - Sep 2025

WORK EXPERIENCE

BOSCH

AI Development Intern

Germany

Jun 2023 – Sep 2023

- Built a **browser extension** that scrapes webpage content and communicates with a **locally hosted LLM**, enabling users to query and receive context-aware answers from company documentation and codebases..
- Designed a **proof of concept** demonstrating secure integration of AI and LLMs within enterprise environments.
- Focused on **data privacy**, **AI security**, and the safe deployment of intelligent systems within corporate infrastructures

TOURATH

Team Lead

Palestine

Sep 2025 – Jun 2026

- Lead the strategic growth and digital transformation of Tourath, integrating culture, innovation, and technology. Managed cross-functional teams, built partnerships with Al-Quds University, and oversaw the launch of platforms like the Tourath Marketplace and Zeituna Ecosystem.
- Led the design, development, and deployment of Tourath's digital platforms, including the Zeituna Ecosystem and Shopify-based marketplace.
- Founded and managed the **Join, Learn, Contribute (JLC)** program in partnership with **Al-Quds University**, empowering students through hands-on technical training and real-world project experience.

TOURATH

Intern

Palestine, Ramallah

Sep 2021 – Mar 2023

- Completed a **digital marketing certification** focused on social media strategy, content creation, and online advertising.
- Managed Tourath's **social media accounts** and executed targeted **ad campaigns** to boost engagement and brand visibility.
- Assisted in planning and coordinating **events** that promoted Tourath's cultural and digital initiatives.
- Helped manage and update **Shopify stores**, ensuring smooth operation, product listing accuracy, and optimized user experience.

PROJECTS

FusionHQ (Graduation Project)

Nov 2024 – Sep 2025

- Developed a **centralized management system** for Tourath's Marketplace, Native Experiences, and Enkidu.
- Integrated **AI-powered document management** and automation for real-time reporting and analytics.
- Replaced third-party tools like Shopify and Magento with custom-built, scalable platforms.
- Built using **React.js**, **Node.js (Express)**, and **MongoDB**, with **NLP-based AI** for document interaction.

Snake (Strategic Neural Analysis and Knowledge Enhancement)

Jun 2023 – Sep 2023

- Built a **Web extension** that extracts and processes webpage text locally.
- Enabled users to **ask questions** and receive context-aware answers using an **offline LLM**.
- Ensured **100% data privacy** — no internet connection or external API calls required.
- Demonstrated a **secure integration** of AI and LLMs for document and web content understanding.

Zeituna - Backend Developer

Jun 2023 – Sep 2026

Node.js, Express.js, MongoDB, Ethers.js

- Developed backend services for Zeituna, a heritage-tech platform for olive tree adoption, olive oil delivery, and digital certificates.
- Built RESTful APIs using Node.js and Express.js for user management, adoption orders, certificate handling, and platform workflows.
- Designed and managed MongoDB database models for users, trees, orders, certificates, and transaction records.
- Integrated Ethers.js to support blockchain-ready features for future tokenization, transparency, and digital ownership verification.
- Contributed to a scalable backend architecture connecting adoption, marketplace, certificate, and future blockchain ecosystem features.
- www.zeituna.co

ACTIVITIES

PCPC Competition Qualifying Competition

Al-Quds University, Palestine

Participant

Oct 2025

- Competed in the **PCPC Qualifying Competition**, demonstrating strong analytical and problem-solving skills.
- Ranked **4th out of 200 students**, narrowly missing qualification to represent the university in the national round.

Expo Exhibitions 2025

Birzeit University, Palestine

University Representative

May 2025

- Qualified to represent Al-Quds University at the national Expo Exhibitions 2025, competing against leading universities.
- Showcased innovative projects and presented technical solutions, highlighting creativity, teamwork, and practical application of technology.

GenAI Hackathon

Palestine

Team Participant

Jun 2024

- Selected to join a **nationwide GenAI training and hackathon** led by professional instructors, with participants from universities across Palestine.
- Worked collaboratively with a team to develop an **AI-powered eSchool concept** leveraging **Generative AI** to support and enhance education.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript
- **AI / LLM:** LLM integration, local/offline LLM workflows, prompt-based systems, AI document interaction
- **Frameworks & Tools:** React.js, Node.js, Express, REST APIs, Git, Docker, Postman, Figma
- **Databases:** MongoDB, PostgreSQL

Certifications & Training:

- VR/AR Training from Alquds University Bcite
- GenAI & Knowledge Base

Languages:

- Arabic: Native / Fluent
- English: Intermediate
